WORKSHOP
JENNY ROFE
DESIGNING AND FITTING APPLIQUÉ SAWTOOTH BORDERS

Friday 18 September

9:00 am–12:00 pm

All Skill Levels

Join Jenny Rofe for a creative hands-on workshop exploring the design and construction of appliqué sawtooth borders.

Learn how to plan, size, and fit sawtooth borders to complement your quilt designs, while developing confidence with appliqué techniques. Jenny will share her tips and techniques for achieving balanced, beautifully finished borders using hand stitching methods.

Suitable for all skill levels, this workshop is perfect for quilters wanting to expand their appliqué skills, refine their design approach, and add a distinctive decorative border to their quilts.

WORKSHOP
JENNY ROFE
REQUIRMENTS

- A PRE-CUT SQUARE of fabric for the block to work on (this can be cut any size from 12 ½" square to a 15 ½" square)
- 2 strips of fabric PRE-CUT for sawtooth borders (cut strips 2" wide x 110cm width of fabric)
- Machine weight thread for hand sewing, in a colour to match sawtooth border fabric
- Hand sewing needle for applique (suggest size 9 or smaller applique or crewel needle)
- 12" school ruler, or similar, with imperial measurements (inches)
- Strip of templastic – cut width of the sheet (approx. 12 ½") x 2" wide
- Permanent, fine-tip marking pen and scissors to cut templastic
- HB pencil or white ceramic pencil, or marking tool of your choice for marking on sawtooth fabric
- General sewing kit: pins, fabric and embroidery scissors, measuring tape etc
