WORKSHOP
GIUCY GIUCE
MODULAR FPP

Friday 18 September

9:00 am–4:00 pm

All Skill Levels

Discover the creative possibilities of modular foundation paper piecing with internationally renowned designer Giucy Giuce (Giuseppe Ribaudo). In this inspiring workshop, you'll create the RE block—a striking modular design that can be customised to suit your own creative style. By choosing from three blade sizes and varying their placement, each participant will create a unique composition with endless design possibilities.

Along the way, Giucy will share his expert tips for successful foundation paper piecing, sewing curves with confidence, and using colour and value to create movement and visual impact. Whether you prefer bold modern palettes or subtle tonal combinations, you'll leave with the skills and confidence to continue exploring modular FPP in your own quilts.

Suitable for confident beginners through to experienced foundation paper piecers, this workshop is perfect for quilters looking to expand their design skills while learning from one of today's leading quilt designers.
